PROFESSIONAL SUMMARY

Business Analyst and Data Analyst with 5+ years of experience translating complex business requirements into scalable, data-driven solutions across healthcare, financial services, risk, fraud, and compliance domains. Skilled in requirements elicitation, BRD/FRD documentation, user stories, process mapping, GAP analysis, data mapping, UAT coordination, and Agile delivery. Strong technical expertise in SQL, Python, R, Spark, Snowflake, Power BI, Tableau, AWS, Azure, and GCP, with hands-on experience in data profiling, ETL pipelines, dimensional modelling, data governance, and dashboard development. Proven success improving batch-processing performance by over 50%, increasing operational productivity by 15%, reducing MTTR by 32%, and supporting HIPAA, PCI-DSS, and NIST compliance with zero critical audit findings. Effective at collaborating with business stakeholders, product teams, data engineers, developers, and QA teams to deliver reliable analytical solutions and measurable business outcomes.

EDUCATION

University of North Texas

Master of Science, *Information Systems and Technology*

AUG 2023 - Jan 2025

GPA: 3.1

SKILLS

Programming Languages: SQL, PL-SQL, Python, R, PySpark

Frameworks & Libraries: AI Frameworks, Prompt Engineering

Databases: Snowflake, Redshift, BigQuery

Tools & Software: Tableau, Power BI, Cognos, JIRA, Confluence, Azure DevOps, Git, Visio, Lucidchart, Postman, Excel (Advanced), dbt, Airflow

Cloud Platforms: AWS (S3, Glue, Redshift), Azure (ADF, Synapse, Databricks), GCP (BigQuery)

Soft Skills: Business Analysis, BRD/FRD/SRS/RTM, User Stories, Process Mapping (BPMN/UML), GAP & Risk Analysis, RACI, UAT, SDLC, Agile/Scrum/SAFe

WORK EXPERIENCE

Molina Healthcare | Business Analyst & Data Analyst | REMOTE

Jan 2025 - Present

- Led requirements workshops producing BRD, FRD, SRD, RTM; drove AS-IS/TO-BE process design and GAP analysis with business leaders.
- Used Claude and AI frameworks to accelerate requirements documentation, user story drafting, and workshop summarization.
- Directed enterprise data profiling and quality initiatives (CRM, billing, finance), building MDM survivorship rules and data contracts for AWS S3 bronze/silver/gold layers.
- Built 3NF and star/snowflake models in Snowflake/BigQuery; developed SQL/PySpark pipelines with Airflow, AWS Glue, dbt.
- Delivered executive Power BI/Tableau dashboards (CAC, CLV, churn, NPS) with RLS security and AI-generated narrative insights.

Cognizant | Business Analyst & Data Analyst | India

Sep 2022 - Aug 2023

- Captured requirements with clinical, coding, and revenue cycle teams; authored BRD, FRD, STM, SOPs with full test traceability.
- Mapped EDI 837/835, HL7, and mainframe data into curated analytical schemas; led UAT sign-off via Azure DevOps.
- Built PySpark pipelines on Databricks/EMR (50%+ faster batch windows); designed star schemas on Snowflake/Redshift.
- Implemented PHI governance (RLS, masked views, audit trails), passing HIPAA audits with zero critical findings.

Wipro, India | Business Analyst | India

Jul 2021 - Aug 2022

- Partnered with Risk, Fraud, and Compliance teams to document requirements and embed regulatory/governance controls.
- Built audit-ready lineage aligned to NIST/PCI-DSS; designed AWS S3/Hadoop data lake with raw and curated zones.
- Developed fraud/chargeback dashboards in Tableau/Power BI, lifting agent productivity 15%; cut MTTR 32% via CloudWatch alerting.

CERTIFICATIONS & ACHIEVEMENTS

- Claude 101 - Anthropic
- AI Fluency: Frameworks and Foundations - Anthropic
- Cisco Data Analytics Essentials - Cisco Networking Academy
- Google AI Essentials - Google
